## EDUCATION

**Bachelor's in  
Computer Science**  
UC Riverside  
2023-2027

## EXPERTISE

- Teamwork
- Hardworking
- Time management
- Problem Solving
- Critical Thinking

## LANGUAGE

- English (Native)
- Taishanese (Native)
- Cantonese (Proficient)
- Mandarin (Proficient)

## ADDITIONAL INFORMATION

- Coding Languages: C++ (2+ years), Javascript (1+ years), TypeScript (1+ years)
- Familiar Sites: VSCode, GitHub, Figma, LeetCode, Khan Academy, Code.org, Scratch

## PROFILE

I am a Computer Science major at UC Riverside, with a strong foundation in programming, software development and problem solving. I am eager to learn new things and am passionate in creating projects that will solve real world challenges. I strive for new experiences and collaborating with others to allow me to grow as a developer/person.

## WORK EXPERIENCE

### Association of Computer Machinery

Jan 2025 - Present

Web Developer

- Develop various frontend components to display static information
- Weekly meetings to learn new technical skills and plan for the week ahead
- Projects: AI/ML CSE Resources, Pre-Therapy Student Organization (PTSO)
- Tech Stack: Next.js, TailwindCSS, Prettier, ESLint, Motion

## PROJECTS

### Personal Portfolio

Sep 2025

- Designed wireframes and layout in Figma, then developed with TypeScript, Next.js, and TailwindCSS
- Implemented animations using motion/react for improved user engagement
- Deployed on GitHub Pages with version control using Git/GitHub

### Text-Based Pokémon Roleplay Game

Oct 2024 - Dec 2024

- Collaborated with teammates and wrote the program in C++ and used tools like VSCode, Valgrind, and GitHub
- Practiced Kanban board, SCRUM, SOLID Principles, Unit Tests, and Gcov/Lcov throughout the project
- Skills: Teamwork, Time Management, Communication, Problem Solving, Critical Thinking

### Cutie Hackathon: Quiz Maker (12 Hours)

Nov 16, 2024

- Created a program that allows users to input their questions and answers to create flashcards for them to study to be better prepared for exams. The program created quizzes out of the flashcards to help users further their knowledge on the topic. There was a save/load feature to track the user's progress.
- Skills: C++, GitHub, VSCode, Time Management, Communication, Adaptability
